This list might seem pretty standard, and some people might already have training, certification etc. In one or more of these areas, a plus if they do.

One of the most important aspects of starting any part-time business I believe: Is that there is a demand for the service where you live.

Also it is important to have a unique marketing approach to separate why your business is: better, quicker, more effective than other businesses.

I started a business idea for painting curbs with a creative idea I had for a flier, a different way to make the numbers more reflective, so just this was just essentially an idea, a piece of paper and some experimentation.

Creativity will also help you in creating a unique marketing approach.
